FOR the transportation of Produce, Merchandise, etc., from and to New York and the Western States, in connection with the

BUFFALO AND CHICAGO LINE OF STEAMBOATS.

Lady Elgin, Hendrick Hudson, Sultana,
Louisiana, Globe, Wisconsin.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and Southwestern States to the superior facilities of their line for transportation to and from the ports on the Upper Lakes. The above line of Steamboats run direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats*, (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

For days of sailing of Steamboats from Buffalo and Chicago, see advertisement in another part of this paper.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Brier Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. ## Our Candidate for Congress.

The *Morning News*, seemingly utterly unable, from long habit and unfortunate early associations, to tell the plain truth, and having about exhausted its stock of abuse of Gen. Scott, now seeks to misrepresent Mr. DURAND, the whig candidate for Congress in this district. It says :—

"Mr. Durand himself has virtually protested against the injustice of attempting to get up an issue between him and Daniel Wells on the subject of Home Industry and Western Improvem'ts. According to his own testimony the democracy whom Mr. Wells represents are friends of Home Industry and Western Improvements. Or if they are not, neither is Mr. Durand, or Mr. Durkee, and the only question presented to our citizens then is, which of the three candidates is *personally* most acceptable. In proof of this we quote as follows from Mr. Durand's letter of the 18th inst., as published in the *Sentinel* :

"I must say that I am not aware of any particular question upon which the good people of this District materially differ."

Mr. Durand has made no such protest, direct or implied, as the *News* states. His remark, quoted by that paper above, has an obvious reference to the *people* of the District, and not the *Candidates*. Mr. Durand believes, and so do we, most implicitly, that if the people of this Congressional District could be brought to a direct vote upon the questions of Protection to Home Industry, and Western (or Eastern) Harbor and River Improvements, they would give a majority of four to one in the affirmative. Mr. Wells is the candidate of the party which opposes both. His election is asked by the press and the orators who oppose both. Where, we should like to ask, and the people of the district will ask, is there any evidence that Mr. Wells thinks otherwise? The *Morning News*, his especial organ, eulogized Senator Douglas to the skies, as he stood in Market Hall, and abused Gen. Scott, and laughed and sneered at the idea of protection to Home Labor, and ridiculed the Whig system of National appropriation for Rivers and Harbors. And this same *Morning News* advocates Mr. Wells' election to Congress. For what? To help Senator Douglas tax Wisconsin Farmers, to build our harbors? What else can it be?

Mr. Durkee, as we understand his views, is a free trade man from principle.

Among the three candidates before the people of the district, there is but one, who stands up openly, frankly, and unmistakeably, for the Whig policy of Protection to Home Labor, the building up of a Home Market, and for the thorough improvement of our National Highways. That man is HENRY S. DURAND—an energetic, upright business man, every way capable, a public spirited citizen, and an honest, generous, whole-souled man in all the relations of life. A large majority of the people of this district agree with him in his sentiments, and the only way in which they can be justly represented in *Congress* is by electing him.

Let no one be deceived by false rumors or false statements. We, and all who agree with us in opinion upon the subjects indicated, as well as upon the subject of Slavery bullying and Slavery extension, have a candidate who represents us *to a dot*—and we mean to support him, with whatever influence we may be able to exert. It will be a fortunate day for Wisconsin that elects him.

## A Bad Business.

Among the papers of the opposition which seem to feel the coming of the November storm most seriously, is the Green Bay *Advocate*. The last number makes sundry wry faces and sorrowful lamentations over the work which, it says, the Whigs are doing in the state. Here follows a specimen :

> Night and day you may see them secretly but assiduously applying themselves to the business of the campaign. Their sentinels are stationed, and their false and fabulous tracts are flying all over the country, to prejudice and poison the minds of the masses against their true interests and the Democratic candidate. *Hundreds of bushels* of these spurious documents, printed in German and other foreign languages, to say nothing of our own, are at this moment crowding our mail bags and filling our Whig post offices, and stores, and groceries and saloons, where they are lavishly dealt out to the unsuspecting and less scrupulous foreign populace.

Well, now, here is a great ado! "Night and day" these wicked whigs are doing their best to bring before the people the issues of the campaign—a serious offence, that! And the "false and fabulous tracts," too,—those documents concerning which the Locofoco presses talks so much, but which they have never seen ;—and the hundreds of bushels of "spurious documents," printed by these rascally Whigs in the "German and other foreign languages" (how dare the Whigs address themselves to foreign-born citizens in their own language?) ;—and the outrageousness of the Whigs in dealing all these out to the "less scrupulous foreign populace"!

What comfort can we administer to our afflicted friends? Perhaps they have magnified our offences; and feel worse than they have any reason to. If so, a brief description of the documents which we have been circulating may go far to allay their fears, and administer a cordial to their wounded hearts. We have sent out, then :

*The Life of Scott*, an unpretending pamphlet of small size, giving a brief abstract of the old hero's services of forty years. This is *in* English German, Norwegian, and French. There is in it no fact mis-stated, nothing "fabulous." Our Loco Foco friends ought not to be alarmed about *this* document, even if some of the copies have fallen into the hands of the "foreign populace."

"*Why I am a Whig*," a calm statement by Horace Greely, of the reason why he clings to our party as the strength of the Republic. This is in English and Norwegian. Have our "democratic" friends any objection?

"*The difference of the parties.*"—There have been circulated among our German friends a few pamphlets under this name, being just what the name indicates. Why shouldn't they have our statements of the difference?

"*Ireland's Miseries.*" This was another excellent pamphlet, copied from that truly American paper, the "Plough, the Loom, and the Anvil," showing, to a demonstration, how the great troubles of Ireland have arisen mainly from the British free trade policy. Why shouldn't Irish our voters see this?

"*The Presidency.*"—This was a copy from the records of Congress, showing, by Gen. Pierce's successive votes against Harbor Bills, against pre-emptioners, against the old Indian fighters, against pensioning old soldiers, and against the right of petition, that he is no man for President, and above all, no man for the West. This was in English and German. Surely there can be no objection to the voters reading the record of Congress.

Such are some of the documents which we have sent out, and *we know that they are read*. Our foreign-born voters are ready and willing to read and hear from both sides. We tell them the truth, and they are beginning to know it. No commands of the self-styled "democratic" press or leaders, directing them not to read whig documents, have any effect upon them. The wand of power is broken. The word "democracy" charms no longer. Hence these lamentations. "Hence these tears."

## Glory Enough.

The Galena *Advertiser*, which is doing admirable service for Gen'l Scott and the Whig cause in northwestern Illinois, remarks, very justly :

> It is the glory of the Whig party that its policy benefits all equally, the rich and the poor—the mechanic and the husbandman—the employer and the employed. It makes no professions of especial love for any class—but treats all with respect, and proposes a plan, which, like the genial sunshine, shall bless all alike. It does not, like Locofocoism, profess a supreme affection for the laborer, for the purpose of winning his vote, and failing in that, then turn round and ridicule his calling and make a public jest of his rough exterior and weather-beaten countenance; but presents a system, which, if adopted, gives employment to the capital of the rich, and a generous reward to the industry of the poor—makes the laborer and the mechanic wealthy and respected—gives comfort and happiness to all classes, and makes the Nation strong and prosperous at home—feared and respected abroad.—Which party is most truly Democratic?

The remak was called out by the sneer of a Loco Foco paper at the excellent whig candidate for Congress in the Galena district, calling him "*a fellow from Galena that they call Denio—a bricklayer.*" But the paragraph, while it is a fitting rebuke for such insolence, contains a wholesome general truth, which is worthy of being pondered upon. In demanding adequate protection for the infant manufactures of our country, such as shall sustain them until they are able to stand the competition of foreign labor, porly paid at starving rates, the Whig party support a policy which was calculated by its advocates of old, and is believed by its advocates now, to produce the greatest good to the greatest number. No sensible man thinks seriously that it is from any particular love to the manufacturer that we advocate protection for his wares. It is, and every candid man knows that it is, because every new manufactre established in this country makes a new demand for the raw materials produced in the country; it is because the hosts of men and women, employed in these branches of industry, must be fed, and will consume the products of the soil : it is because the establishment of these interchanges of produce and manufacture at home, on our own soil, saves to all parties the vast cost of transportation,—that the whig party advocates a beneficent policy, which, carried into operation, shall give equal and exact justice to all.

## Let us have the Proof.

The *Sentinel* says that Mr. Woodward, the recently elected democratic Judge in Pennsylvania, is a Native American. We pronounce this statement false, and call upon it for proof.—*Morning News*.

Wouldn't you like to have us prove that the sun shines, or to prove some other notorious fact? You *know* that, in the Convention which framed the Pennsylvania Constitution, Mr. Woodward offered a motion which shows upon the record as follows :

> "Mr. Woodward moved to amend the amendment, by adding thereto the words, "and that the said Committee be also instructed to inquire into the propriety of so amending the Constitution as to PREVENT any foreigners who may arrive in this State after the 4th day of July, 184-, FROM ACQUIRING THE RIGHT TO VOTE OR TO HOLD OFFICE IN THIS COMMONWEALTH!"

You *know* that he made speech after speech to the same effect. You *know* that the whole strength of the Native party in Pennsylvania, headed by Peter Sken Smith and Lewis C. Levin, has been cast for him, and that they have held a grand glorification over his election. "Prove it," forsooth! Is it possible that you have the face to deny the fact?

Do you not know that when he was nominated by a Loco Foco President, for Supreme Court Judge, the Irishmen of Pennsylvania petitioned the Senate against his conformation, and he was rejected? "Prove it," indeed!

## Irishmen! Read This!

Read the following declarations of your patriotic countrymen relative to the effect of British Free Trade upon the "Green isle of the ocean.—That policy made of you hewers of wood and drawers of water at home. Now it pursues you here, where you are breathing the air of liberty, and it would bind you down beneath the Juggernaut car of British progress, with chains ten times stronger than those which you tore asunder when you came to this country :

> "PROTECTION TO AMERICAN INDUSTRY—The most legitimate and effectual punishment we can inflict on JOHN BULL for his tyranny and oppression to IRELAND."—*John Costigan.*

Will any Irishman be longer led by the nose by men who believe in principles, and exhibit a practice, so directly contrary to his dearest interests? ANSWER AT THE POLLS!

## Giving it Up.

The New York correspondent of the Cincinnati *Citizen*, locofoco, makes the following confession. It is in confirmation of what has been said from the first—that New York was sure for Scott and the Whig ticket. The support of Capt. Rynders cannot save them :—

> Strong efforts will be made to produce a fusion of the Barnburner and Hunker interest, which united would doubtless insure a triumph for the democratic party. The hope of the Whigs rests in the belief that the two wings of their opponents will never be reconciled, and be made to act in unison. Capt. Rynders, of the "Empire Club," has given his powerful troops orders to wheel into line, and give the regular democratic nominees their fullest support. But nothwithstanding this, sound, but less sanguine democrats, think that it is holding out a delusive hope to promise a certain victory over the immense personal influence of Washington Hunt; but nevertheless, no stone will be left unturned to place Mr. Seymour in his position.

THE "DO NOTHING" CANDIDATE.—In addressing the Whigs at Harrisburgh, Pa., Judge Conrad gave Gen. Franklin Pierce the following *setting out* :

> The nomination was made, not merely NOTWITHSTANDING Pierce was inferior to the eminent statesmen suggested by the people, but BECAUSE he was thus inferior; the inferiority being his sole merit and their sole motive. What else can be pretended? True, he is urged as a hero; but his military achievements, what are they? Nothing. He is commended, also, as a statesman; but what are his civil triumphs? Nothing. In war what battle did he win? None. In peace, what principle has he illustrated? None. What measure did he carry in Congress? Again, none. What work has he produced at home? Still none. The celebrated Rochester displayed his ingenuity by a poem on "Nothing," the Locofoco Convention adopted the same subject. His history is a blank, his exploits a dream, his claim a shadow. Nothing constitutes his career, nothing warranted his nomination, nothing can effect his election; for as his merits are nothing, nothing can come of nothing

A FALSE REPORT.—The Cleveland *Plaindealer* circulates a report relative to the Wisconsin M. & F. Ins. Co., calculated to injure its standing away from this city, and among those few persons who put faith in the statements of that paper. The report is to the effect that a certain Cleveland broker came on here with $15000 in checks and had great difficulty in getting the specie upon them. We learn that such a person did come on, presented his checks, took his specie and left, as he might have done, if he had fifteen times $15000. We learn further that the individual mentioned is well known for his attempts to force banks and brokers into favorable business arrangements with him, and when they refuse, for circulating reports injurious to their standing; and that he now is under a suit for libel upon an institution in Ohio.

Here at home, there is no necessity for these remarks, but they may do good elsewhere.

IMMIGRATION.—The Madison *Journal* has the following extract from a late letter from Mr. VAN STEENWIK, our faithful Commissioner of immigration in New York :

> "From the 23d to the 26th of September, nearly thirteen thousand emigrants arrived in the port of New York.
>
> "Hundreds of the above are now on their way to Wisconsin, many of whom went directly from my office. I feel happy that I am in a situation to the well-being of the emigrant. I am doing all I can, but not all I could wish. Wisconsin will feel that the harvest from the seed is rich, and that no investment will yield higher intesest to the State."

GEN. SCOTT'S SPEECHES.—We understand that measures are being taken by the Scott men to present the *Wisconsin* with some adequate token of gratitude for publishing the series of neat addresses made by Gen. Scott at different places on his late tour. They are a collection of gems, in their way.

The only fault which the *Wisconsin* seems to find with the General, is that he did not make long speeches on political subjects. We thing that he exhibited excellent taste in not doing so.

☞ The Secretary of the Treasury acknowledges the receipt of the following note, enclosing one hundred dollars, which agreeably to the request contained in it, has been placed in the Treasury of the United States :

> "Place the within to the credit of the United States Government, and oblige
> "Your obedient servant, "H. L."

NOMINATIONS.—The Whigs of the north east Assembly district of Dane Co., have nominated OTIS B. LAPHAM of York to represent them in the next Legislature. In Walworth Co., the locos have nominated C. M. Baker in the Elkhorn district, G. G. Williams in the Whitewater district, Gayland Blair in the Delavan district.

ILL TEMPER.—The *Free Democrat* seems to be determined to be cross and ugly at the Railroad Company because business presses upon them so rapidly that they can't up to their time. Well! if our neighbor is any better for keeping himself in such a state of feeling, we are willing. It don't make the slightest difference to us.

## The Tonnage Bill.

The following is the vote on the bill of Senator Douglass, for levying tonnage duties on vessels in lieu of appropriations for Harbor and River improvements by the General Government.

YEAS—Messrs. Atchinson, Borland, Brodhead, Brooke, Butler, Charlton, Dawson, De Saussure, Dodge of Iowa, DOUGLAS, Hale, Hunter, Jones, of Iowa, KING, Mason and Soule—18.

NAYS—Messrs. Bayard, Bell, Bradbury, Bright, CASS, Black, Cooper, Davis, Felch, Foote, Geyer, Hamlin, Houston, Meriwether, Morton, Pearce, Pratt, Rusk, Seward, Smith Sprauuce, Sumner, Underwood—25.

It will be seen by the above that *Mr. King, the Locofoco candidate for Vice President*, IS IN FAVOR OF THE MEASURE. As Senator Douglas avowed his determination to bring the bill forward at the next session, it is important that the people of the West give it consideration.

Farmers particularly have an interest in it, for according to Senator Cass, "the whole of the tonnage duties levied at New York, Albany, Buffalo, and the ports on goods intended for use, WOULD ALL HAVE TO BE PAID BY THE AGRICULTURAL CONSUMER."

Let the "agricultural consumers" of Illinois decide then, whether they will assume this burden as a class, or not. "Locofoco tonnage duties levied upon the agricultural consumer," or "Whig appropriations by the Government for Harbor and River Improvements"—which will the people of the West decide to have?—*Chicago Journal.*

# City Matters.

FIRE!—About noon yesterday, the alarm of fire was given, and brought the department out in short order. It was found to proceed from a house on the east side of East Water-st., occupied by a Mr. ZEM, a German. The building was demolished by the fire and the hooks, in about 25 minutes, and the buildings each side saved, that on the north being injured to the extent of about $200, and that on the south about $150. The building in which the fire originated was insured to the amount of $400, which was nearly its value. We understand there was no insurance on the others.

One of the members of the Hook & Ladder Co. received an accidental blow from an axe, which cut his leg severely. It was only a flesh wound, however, and he is doing well.

A WRECK.—The schr. *J. W. Brown*, bound to this port with a full cargo of merchandize and railroad iron, was struck by a squall on Monday, when about 40 miles S. W. of the Manitous, and lost her bowsprit, foremast, and the upper half of her main mast, leaving her totally unmanageable. Some 30 tons of the iron was thrown overboard. She was overtaken and towed into port by the propeller Buffalo, Capt. Conkey. The Captain entered a protest.

SOUTHERN MICHIGAN LINE.—We are informed by Mr. CRUMMEY, agent of the Southern Railroad Line, that the boats of the company will hereafter touch at Cleveland daily on their trips to and fro. This will be a great accommodation to the large amount of travel which goes and comes through that port.

The Toledo *Blade* says :

> We are glad to welcome back, to her place in the line, the Northern Indiana, and to observe that since her last accident, her old arches have been strengthened, and new arches added. She is now as strong and staunch as she is beautiful and speedy, and will outride in safety, any ordinary gale that old Boreas may blow over her track on Lake Erie.

SUICIDE.—Yesterday morning, a Mr. HOCKEN, a German, was found dead in his bed at Wettstein's Hotel, on Market Square. He had taken morphine the night previous, and died from its effects, although he had endeavored to make death the more certain by cutting himself with a razor across the wrist. The wound was not severe, and he had bled but little. He was about 30 years old, and unmarried. The only cause which we hear assigned is an unfortunate love affair.

NEW FIRM.—As will be seen by their advertisement of copartnership, Messrs. JOHNSON & OLMSTED have taken the warehouse formerly occupied by Williams & Co., foot of Main St., and are ready for business in the produce line. Long may they wave!

NEW EXPORT.—The propeller *Gen. Taylor*, hence for Buffalo, took on among her other freight 2 tons shorts, consigned to parties in Boston. It is, we believe, the first shipment of produce of that kind. Transportation is likely to add a considerable percentage to its value by the time it reaches its destination.

MORE VESSELS.—Capt. JONES is getting out the moulds for a couple more schooners, to be built during the winter at the yard on the Menomonee. The first one is to have a keel of 140 feet, which will probably make her register over 200 tons.

BOOKS! BOOKS!!—We learn that the old acquaintance of our Milwaukee lovers of books, Mr. FOSTER, is to be here very shortly, with a stock, assorted as usual, and we expect he will say this time, "manufactured expressly for the Milwaukee market." There's fun coming!

GOING! GOING! GONE!—The Locos last night had Professor Van Epps out with his bell, shouting to the democracy to turn out to hear the speakers from Detroit. They didn't accomplish anything here, and will have more than they can take care of, home.

PROF. HEMPSTED.—It will be seen that Prof. Hempsted has removed his stock of musical instruments, music, and all the articles belonging to such an establishment, to Birds' bookstore, on Wisconsin St., where his numerous friends can find him.

A GREAT TRIP.—The schr. *Aroles*, which left here about a fortnight since, loaded with wheat from McCracken & Co., made the trip to Oswego in *eight days and 20 hours*. That looks like hurrying up things.

JEWELRY, WATCHES.—We hear of great bargains made nightly at WALL'S Auction Room in Watches and Jewelry. If any one cares to sport a gold repeater, now is the time to do it at a moderate cost.

FIRE AT CHICAGO.—We learned yesterday that the Baptist Church at Chicago was totally destroyed by fire.

☞ See Messrs. WEBSTER & AVERELL'S advertisement of their well selected stock of goods in their line.

## An Old Soldiers' Testimony.

From the Watertown Journal.

We publish the following communication with great pleasure. The author is an old and esteemed citizen of the town of Le Roy. His eloquent words speak the true impulse of a soldier's heart:

Le Roy, Oct. 7, 1852.

*Messrs. Clark & Fayel, Gents* :—

I am enlisted for the harvest of November next. I think it will be as good a one as was ever taken. The grain is full ripened, and not a particle of rust can be found in the crop. Now let us be up and doing while we may! With one exception, I have been a firm supporter of the democratic ticket for thirty-four years : but when I see the benefactor of his country, (during his time and day,) and one so well deserving it, in my opinion and judgment, in every respect and particular, held up for the highest office in the Government, I cannot hold nor cling to the dictation or nomination of my party. I know Gen. Scott is a humane, magnanimous, noble, patriotic and faithful man to his country. I believe him to be a true democrat, and am proud of the opportunity to give my voice and vote in manifestation of my appreciation of, and love for him, in preference to another man, even tho' he has the nomination of the democratic party.

I have, as I said, enlisted for the campaign, and mean to fight until all our foes are put to flight.—I am now positive, and firmly believe that Gen. Scott will reap the harvest of the industry and heroism of his past life. No man can say aught against the hero; and now I will tell you how we became acquainted, and what I know of my old comrade, Gen. Scott.

I enlisted for the war of 1812, at Boston, in the year 1813, in Capt. Samuel D. Harris' Company, 2nd Regiment of U. S. Dragoons, and was one of the active escorts of Gen. Brown, and other officers in command during the war. Often and repeatedly did I meet Gen. Scott, and I desire to mention one little incident, as illustrative of the consideration and bearing of Gen. Scott toward his men. During the cutting of a road for a passage of the troops near Chippewa, I was employed with my old charger, carrying tools and messages from one point to another. I rode up to Gen. Brown's Marquee for a spade that lay on the ground, and in my haste, thoughtlessly said to Gen. Scott, who was nearest to me : "General, will you please to hand me up that spade?" pointing to it. Wishing the words back, and fearing he might reprimand me, to my gratification he kindly gave me the spade, saying,

"Yes, sir, with pleasure."

This little incident, with others of daily occurrence, endeared him to me forever. I speak the true sentiments of my heart, and I appeal and beseech all the old soldiers and survivors of the war of 1812, as my companions, to join me to do honor to the Hero of Lundy's Lane. I shall, for one. I have been with him when the cold iron and lead was hurled from our enemy's pieces like streaks of lightning, and when the struggles and groans of the dying and wounded were tremendous and agonizing on both sides, and there was our old Hero on the right, left, and in the centre of his brigade, giving the word of command, during some of the hardest fought, hand to hand battles that ever were fought, and I cannot desert him now. He is an honest, good man, worthy of this honor, and I speak the truth of an old soldier. I never saw a more generous, kind, or pleasing gentleman than Gen. Scott, in my life; and my sincere prayer and belief is that the people of the United States will award to him their gratitude and appreciation of his noble qualities and long and valuable services. My heart tells me he must and will be our next President.

I ask your pardon for trespassing upon your time. I feel it my duty to make my voice heard, and if you will publish these few broken lines to the world, I will thank you.

WILLARD STOWELL.

A SON OF A GUN.—The night police yesterday morning brought up a queer customer from a gutter down town; in which he had taken lodgings along towards the first cock-crow. When first introduced to the Police Justice, this representative of gutterdom was in a sad plight, but just drunk enough to be as happy as a lord could be under like circumstances.

*Justice*—Stand up, sir.

*Prisoner*—Can't do it, sir. Great constitutional objections to standing. Prefer to sit.

*Justice*—What's your name?

*Prisoner*—No matter about that, sir. My name is writ in bad brandy, sir. I love brandy, as a general thing. Indeed sir, brandy—

*Justice*—Silence, sir! What's your name?

*Prisoner*—If I obey you and keep silence, how will you ever know my name? Name? Ah, sir, what's in a name? A rose by any other—

*Justice*—No trifling with me, sir. Answer my question at once, or I'll send you up.

*Prisoner*—Just where I want to go; just where you'll send me, whether I answer you or not.—Fact is, my name is no trifling matter. Sir, I am a Son of a Gun!

*Justice*—I fear that you are something worse than that.

*Prisoner*—True: I'm your prisoner. Keep a good watch on me. I am remarkably apt to "go off!" My partiality to saltpetre is decided. My temperament is sulphurous. I go in for carbon and carbines. I affect a rifle. Muskets are my pride, Colt's revolvers the idols I worship. Sir, my soul is equal to a Paixhan. A gun! a gun!! my what you call it for a gun!!! Squire did you ever "go a gunning?" No. Well sir, then your leather-headed Charlie there—the chap that pulled me out of bed this morning, I mean—has clearly got the start of you. He has an eye to both sporting and business.

*Justice*—what do mean, sir?

*Prisoner*—Why, he "went a gunning" on his beat this morning.

*Justice*—I do not understand you, sir.

*Prisoner*—Very likely. If I recollect aright, you just now asked me me my name?

*Justice*—Your memory is not at fault. Pray what is it?

*Prisoner*—Sir, my name is Gorham Gunn, at your service. I am a "Son of a Gunn," as you see, and the hapless victim of that be-capped and be-clubbed sportsman who "brought me up" so unceremoniously this fine cool morning.

*Justice*—Mr. Gunn, I shall be obliged to send you up as a vagrant.

*Gunn*—Very well, sir, I'm ready to "go off!" And "off" Mr. Gunn did "go."—*Albany Reg.*

## No Poverty in China.

The Philadelphia *Courier* says, it is remarkable that China, with a well defined nationality of four thousand years, and a population for two thousand years, denser, according to its area, than that of France or Britain, has never had cause to complain of the misery or distress of her people! Virtually she has no paupers—no poor. Her infirm or unfortunate have been generally provided for by the State; while her masses have been, and are, the happiest and most independent people on earth. The reason of this lies in the habits of industry and love of peace of the Chinese. They till the earth in every available spot; they drain marshes, and earth over waste places : they turn all the richest of the earth to the most practicable account; and, living peacefully and simply, they have comfort and plenty. No people on earth live so completely within their own means. They have never sought the trade of any country, never have interfered with any other country, but, minding their own business, have grown rich and been wise, when more boasting nations were steeped in poverty and ignorance. Surely the nations and people of Europe and our own country have yet to learn the art of true living and well governing. If we would not become like the Chinese, we might learn much from them, that would increase our sources of pleasure. We should learn to be industrious, and to be contented with what we have, instead of sacrificing what we already possess in pursuit of what we can never obtain; and if were to obtain it, should be no better satisfied than without it.

## Loco Foco Fillibustering!

Senator Douglass was the first prominent Loco Foco who took unequivocal ground in favor of the annexation of Cuba. Gen. Cass, "Old Fogy" though he be, was unwilling to be deemed less a propagandist that "Young America." He consequently followed in the wake of the "little giant," and at Cleveland shadowed forth sentiments similar to those previously avowed by the recognized representative of the "fillibuster" division of the Loco Foco party. Other orators, encouraged by the avowals of these pillars in the "Democratic" temple, have taken open ground in the same direction. Among them is General Walbridge, one of the Tammany Hall candidates for Congress. In a speech delivered on Monday evening he said :

> I should like to speak upon the recent outrage committed upon an American steamer in the port of Havana; but this cannot be, and I will only say in conclusion, *that Cuba shall and must be part of this Republic!* (Cheers.) In 1844 we struggled for Texas, and we obtained it. In 1852 we strive for Pierce and King—Cuba and victory.

No avowal could be more in harmony with the political history of FRANKLIN PIERCE. As a member of Congress, he not only uniformly voted against the Right of Petition, but did everything he could to gratify those who desired the perpetuity and extension of slavery. As President of the United States, he would exhibit the same spirit; and nothing would probably give him more pleasure than to co-operate with the Cuba "fillibusters" and the advocates of the division of California. The annexation of two new Slave States would be glory enough for Gen. Pierce's Administration.—*Albany Eve. Journal.*

THE WORLD'S FAIR.—The following is a memorandum of objects lately received from Europe as promised, for the exhibition in the new Crystal Palace :

About eighty packages, which arrived by the Hendrik Hudson, Ocean Queen, and Sir Robert Peel, from London, are warehoused in the United States Government Bonded Store. They contain sundry goods that were in the London exhibition, including statuary, porcelain, paintings on porcelain, candelabra, musical instruments, casts, &c.

From the Danish department, statuary, porcelain, paintings, casts, &c.

The celebrated colossal statue of the "Amazon," by Professor Kiss, of Berlin, has arrived in this city.

The Turkish Ambassador has written to the agent, Mr. C. Buschek, of London, that the Sultan views this enterprize with much approbation, and will send a government steamer with the contributions of Ottoman industry, direct to this port.

The colossal statue of Washington, by Baron Marochetti, who took a council medal for his "Richard Cœur de Lion," is completed, and represented to be a most magnificent work of art.

The French Government have promised to exhibit a collection of Gobelin Tapestry and Sevres Porcelain, even more complete than that shown in London.

The Town Council of Liverpool have promised to send the model of that town, as exhibited at London.

Monti will send one of his celebrated veiled figures.

The London Art Union promise an interesting collection of statuettes, &c.

The Demidoff family have promised to send samples of their manufactures in malachite, which are said to be unequalled in their way.—*N. York Evening Post.*

GOOD NEWS FOR POTTER COUNTY.—Our quiet village was suddenly quite excited on Sunday evening last, by the announcement that the world-renowned Ole Bull had arrived in town. As no intimation of his visit had reached us, most of our citizens were at first exceedingly skeptical about the matter, but the presence of John F. Cowan, Esq., from Williamsport, soon dissipated all doubts, and we began to realize our good fortune. But our astonishment was greatly increased on learning that this celebrated man had purchased *one hundred and twenty thousand acres* of land in this county, with a view to its speedy settlement by his countrymen. Ole Bull's reputation, genius, and wealth, will enable him to settle as many of his countrymen on his new purchase as he may desire; and we therefore look upon this movement as the most important that has ever occurred in the history of this county. As a farther evidence of the reality of the change that is taking place in our affairs, and of the intention to settle our South-eastern wilderness, there arrived on Monday evening some thirty fine-looking, robust, and determined sons of Norway, on their way to Ole Bull's new purchase. As we understand it, this is the Vanguard of the army which is to follow—and to follow just as fast as these pioneers can make arrangements for others to live. But we will wait further developements before we enlarge upon these strange events.—*Journal, Coudersport, 10th.*

☞ The *Plaindealer* says the Shamocrats will have a jollification to-night over the election. What are they to rejoice over?

Is it the loss of 15,000 votes since last fall on the State ticket?

Is it the defeat of Gray's *Pet*, Wilson, for Congress?

It is because this city has gone Whig?

Is it because Old Hamilton has gone Whig?

Is it because Major Sapp is elected in the strongest Locofoco district in the State?

Is it because old Gid. licked them in the Mahoning district?

Is it because L. D. Campbell licked them out in the Butler district?

Is it because Jefferson, Tuscarawas, Morgan, Franklin and some dozen other Loco counties, lost last fall, are redeemed by the Whigs this fall?

They had better save their wind to cool their punch. Glorifying over such victories is like the boy whistling to keep up his courage. *Cleveland Forest City.*

☞ Hundreds of our citizens complain of debility and languor of the system, derangement of the liver and stomach, want of appetite, &c.; they are frequently the result of too close application, and a thousand other causes we cannot here name; but we would say to all so afflicted do as we have done—get a bottle or two of Dr. Hoofland's German Bitters, prepared by Dr. Jackson, and, our word for it, you will be cured. We recommend this medicine knowing from experience that it is much superior to the generality of patent medicines. We would say to our readers, purchase none unless prepared by Dr. C. M Jackson, Philadelphia.

WHAT CONSTITUTES A GENTLEMAN?

THE reader's definition would probably be, true kindness, consideration for the feelings of others, and honesty and liberality of sentiment. These qualities do, in reality constitute the gentleman; and in a society organized upon the basis of moral worth, instead of wealth, would pass current as a sufficient passport to the highest circles. But unfortunately for many of Nature's noblest works—gods—gentlemen,—something more than moral worth and genuine politeness are requisite to obtain the appellation of a gentleman. In most cases a good, if not fashionably clothed exterior, is the only road which affords ingress to the society even of those who profess to be guided by other standards than appearances.

The Hair, one of the first objects that attracts our notice, is by many considered the most important. A person may be clothed in the richest fabrics manufactured after the most approved taste, his hat may be irreproachable in style, his linen may be pure and unsullied, his boots may be well-fitting, gentlemanly, French calf or the bright, glistening patent-leather, with its untarnished, mirror-like surface still something is wanting. Although we lay no claim to the character of a philosopher, or metaphysician, we think a little light may be shed on this vexed want :—*The Head is Bald!* Still, do not despair! Johnson's Chemical Hair Invigorator, whose perfume is of the most rare and delicious fragrance, the best and only reliable antidote for baldness known, is still to be obtained. If any roots are left it will produce hair. It gives tone and vigor to the functions of the scalp, and speedily insures to the user a beautiful crop of hair.

*Advertisement.*

AYER'S CHERRY PECTORAL.

We call attention to the advertisement of this article now in our paper, and at this season of the year when colds and coughs are so prevalent, the information it contains will not be found unwelcome. The eminent names, lent to recommend it, are conclusive proof of its value. In addition to these we have been favored with the perusal of letters from many distinguished individuals as well as humble sufferers, who acknowledge their indebtedness to this valuable medicine for the recovery of their health from painful and dangerous diseases. It is at once safe and pleasant to take, and is certainly very powerful to cure.—Those afflicted with coughs, colds, asthma, bronchitis, hoarseness, or indeed any of the various affections of the lung, will do well to try the Cherry Pectoral, and will have no cause to regret the experiment.

WORTHY OF ALL CONFIDENCE.

DR. STORM'S CELEBRATED SCOTCH COUGH CANDY.—No medicine ever invented has gained more popularity than this, nor is there any more deserving of it. There are so few compounds worthy the high merit claimed for them, that when one which is really destined to benefit the afflicted is put forth, we are slow to believe our most intimate friends, when they praise it. But Storm's Scotch Cough Candy is sold at a price so low, it must be evident to all that if it did not sustain a good reputation, enough would not be sold to pay for advertising. Almost every person that uses this article according to direction will feel justified in recommending it to others, it needs but a small outlay of money and time to satisfy the most sceptical that it is worthy of all confidence as a remedy in diseases of the Chest and Lungs.

Price, One Dime per Roll; 3 Rolls for 25 Cents; or $1 per Doz.

A handsome engraving of the Scottish Coat of Arms, and the written signature of Hamilton Wade, (proprietor,) is on the outside wrapper of each roll or package.

Passengers by the Black Warrior, reports that it was rumored at Havana, that if Capt. Porter should insist on landing, the Cresent City would be fired into. The greatest excitement prevails in consequence. Should a shot be fired, Lieut Porter has orders to surrender his vessel.

The Ship Elizabeth Jane, Captain Brooks is said to have been outraged by the Havana Police who searched her cabin and examined all the Captain's private papers on suspicion that he had filibuster correspondence concealed on board.—Further conspiracies have been discovered at Mantanzas and other places. The situation of the Patriots is every day more and more compromised, imprisonments and denunciations multiplied. The conspiracy has been denounced at Mantanzas, and a section of the commission military despatched thither to enquire into the acquisition and commence trials.

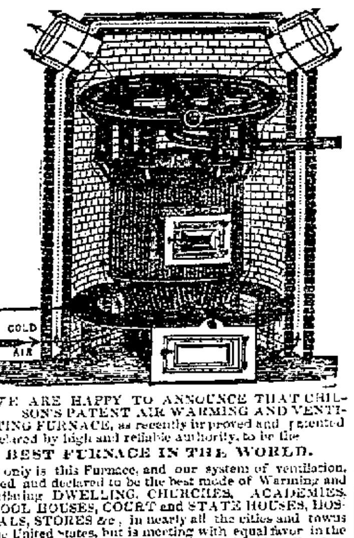
## CHILSON'S PATENT

**World's Fair Prize Medal**

## FURNACE!



WE ARE HAPPY TO ANNOUNCE THAT CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented is declared by high and reliable authority, to be the

**BEST FURNACE IN THE WORLD.**

Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating DWELLING, CHURCHES, ACADEMIES, SCHOOL HOUSES, COURT and STATE HOUSES, HOSPITALS, STORES &c., in nearly all the cities and towns in the United States, but is meeting with equal favor in the CANADAS, ENGLAND, RUSSIA, and other Foreign Countries. It has been awarded at the recent Fairs in this country, gold and silver medals, first premiums, and lastly the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best.—(See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty-five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the Inventor of this Furnace first abandoned the manufacture of the common frail hot air furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air, and the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a *healthful, economical* and *durable* apparatus, for thoroughly warming and ventilating buildings, has been entirely successful.—They possess the following advantages: purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals or wood, all equally well—flues easily cleared out—great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars.—Sizes for all classes of buildings. Also, 4 sizes of new and superior PORTABLE FURNACES,—Dr. Clark's Improved Boston School Stove.

Registers of all descriptions; Hot-air Grates; Room Ventilators, &c.

Emerson's celebrated Ventilators for Roofs of Buildings and smokey chimneys, &c. Cooking Ranges, with or without Bath Boilers, and Hot-air Fixtures. All sizes and styles of those beautiful

of rich European and American styles. Also a splendid article of Liverpool Soft Coal Grates, for Parlors, &c.

Architects, Builders, and the public generally, please examine our extensive assortment. Personal attention given to warming and ventilating buildings in any part of the country,

**SAUGATUCK IRON WORKS, WESTPORT, CONN.**

OFFICE NO. 5 NASSAU STREET, NEW-YORK.

WE DESIRE TO CALL ATTENTION TO THE following articles which we are manufacturing for Railroad companies, to-wit:—Car wheels and axles, boxes and pedestals, wheel presses, locomotive drivers and cylinders, screw cutters, drilling machines, switch stands, levers and targets, frogs, head and heel blocks, chairs, and all castings connected with Railroad super-structure.

WHEELS.—Nearly two years since we commenced business, with the view of making wheels. We were then informed by gentlemen whose intelligence and experience entitled their opinions to great weight, that the wheel was imperfect, and advised us to attempt its improvement.—With every desire to succeed, we commenced an examination of the various patterns in use, to ascertain and secure the best. We soon became convinced that a majority of the patterns would prove satisfactory, if the iron of which they were made was sufficiently strong and properly chilled. Since then, we have left no means unemployed that we could control, to procure a new and stronger combination of iron than heretofore used, and feel confident that we have succeeded, with which we are now manufacturing double and single plate and spoke wheels, fully guaranteed as regards strength and perfect chill. Within sixty days we will be able to supply limited orders with "Whistler's Express" and "Whistler's Single Plate" wheels. From the material used in, and the expense of fitting up, these patterns will cost something more than ordinary wheels, but it is confidently predicted by those whose opinions are most valuable in such matters, that they will possess a greater amount of strength than any cast or combination wheel made. They are the invention of Geo. W. Whistler, Jr., Esq., (whose experience in all matters connected with railroads is sufficiently known) and intended to obviate the influence of contraction and expansion to an extent that will render them perfectly safe in all weather, at the highest rate of speed.

AXLES.—We will use none but the best fagoted, which are superior to any other.

SWITCH STANDS, LEVERS AND TARGETS.—We have adopted a stand that recommends itself for simplicity of construction, and the best guarded of any we know, invented by Van Blarcomb, Superintendent of Machine Shops of the Housatonic & Naugatuck Railroads, but will make of any pattern desired.

SCREW CUTTERS.—The invention of Mr. Van Blarcomb, a useful, cheap and successful machine.

BOXES AND PEDESTALS, of any size or pattern to order.

DRILLING MACHINES, of a very simple and very substantial character.

WHEEL PRESSES.—Made to order.

LOCOMOTIVE DRIVERS AND CYLINDERS.—Made to order.

FROGS, CHAIRS, HEAD & HEEL BLOCKS, And all work connected with superstructure, made by contract.

Predicating our success on the facilities we possess of procuring the latest improvements in machinery, and the uniform excellence of our work in material and finish, we solicit orders.

**H. H. RAYMOND'S Spherical Disinfecting Fluid,**

FOR purifying the air of sleeping and sick rooms, cabins and holds of ships, particularly for passenger ships, at sea or in port, prisons, jails, crowded rooms in general, from offensive, close and infectious air of all kinds, including the infectious spheres of cholera, ship, typhus, yellow, bilious, scarlet and other fevers of our own or Southern and Western climates, in cities and towns, on land and water. Also, for disinfecting the bodies, clothes, and trunks of persons who are in or have been in the atmosphere of infectious diseases.

This fluid is healthy to breathe or take internally, and instead of filling the room with a choking, irrespirable air, as the chloride of lime and other chemical preparations in use do, it makes the whole air sweet and salubrious, and at the same time strengthens the respiration and enlivens the spirits of those present, by its balmy, fragrant and tonic influence.

**HOE'S CAST STEEL CIRCULAR AND LONG SAWS.**

THE SUBSCRIBERS MANUFACTURE FROM THE best cast steel, Circular Saws, from two inches to five feet in diameter. These saws are carefully hammered and tempered, and are ground and finished by machinery designed expressly for that purpose, and are therefore much superior in truth and uniformity of temper to those ground in the usual manner. They require less set, less power to drive them, and are not so liable to become heated and produce waste in timber.

They also manufacture Cast Steel MILL, PITT and CROSS-CUT SAWS and GULLET WEBS, of superior quality, all of which they have for sale at their warerooms, Nos. 29 and 31 Gold street, or they may be obtained of the principal hardware merchants in the United States.

The following extract is from a report made by a committee of scientific and practical gentlemen, appointed by the American Institute:

"Your committee are of unanimous opinion, that in the apparatus invented by R. M. Hoe, for grinding saws, he has displayed great ingenuity and taste in the adaptation of machinery to the production of results in the manufacture of Saws, which may with propriety be denominated the ne plus ultra of the art."

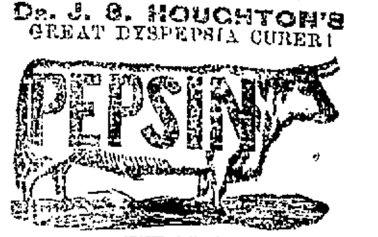
# PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

**Dr. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!**



THE TRUE

**DIGESTIVE FLUID, OR GASTRIC JUICE**

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

**SCIENTIFIC EVIDENCE.**

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

**AS A DYSPEPSIA CURER,**

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

**OLD STOMACH COMPLAINTS.**

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant Relief! **CHERRY PECTORAL**

For the rapid Cure of

**COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.**

MANY years of trial, instead of impairing the public confidence of this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys.—While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs.—Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should command itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

### HAY PRESS.

THE IMPROVED PATENT LEVER RAILWAY PRESS EXCELS ALL OTHERS now in use for pressing Hay, Cotton, Hemp, Wool, Hops, Rags, &c. &c., and will be warranted to perform well and do double the work that any other press can with the same number of hands, with less than half the draught: a small boy can attend the horse, and the running back of the follower with ease. The time required in running up the follower, is fifteen seconds. A bale of Hay can be pressed in less than one minute, at ordinary all day work: seven or eight bales can be pressed and bound per hour. Bales of Hay can be pressed, weighing over 400 lbs., measuring two feet square and four feet long. Bales of Cotton can be made compact enough without compressing.

The construction of this press is such that it does not require a building expressly for it, as it may be placed in any barn or shed, and the horse may move in any direction, or at any distance from it; and when the bale is ready for delivery, it is discharged instantly, and the follower gradually recedes as the Hay is placed in the box.

The construction is so simple that any man can make a Press, or keep it in order.

The travel for a horse, in running up a bale, is fifty feet, while in a screw press, the travel is one mile and a half in running the screw up and down. We have one new Press now in operation at Waukesha, Wis., and two others in process of construction.

So great a failure of the hay crop as has occurred in all of the Eastern and Atlantic States the present season, cannot fail to ensure a most profitable business to any persons in Wisconsin or Illinois, who may take hold of this business with energy. The hay may be shipped during the present fall, and three months of the spring navigation, before another hay crop is raised.

REPORT OF THE PREMIUM COMMITTEE OF THE AGRICULTURAL SOCIETY OF NEW-YORK.

"The Lever Railway, Hay and Cotton Press, is a machine combining great power, convenience of operation, and constructed on true philosophical principles, and is a great desideratum to the river counties, and all places not contiguous to market, and also to cotton and hop growers; and the Committee think they do not exaggerate when they say it is, in their opinion, the perfection of machinery for that purpose. The Committee therefore award a premium of $5."

The Press, with the right to use it, can be purchased at less than half the cost of any other Press now in use. For rights for a single Press, or Towns, Counties and States, application should be made to the subscriber.

### GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(*Which received the First Premium at the State Fair, lately held at Janesville.*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire backs acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every Joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrate the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF
*In a few seconds*
WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconitine, Belladonna, Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,

*And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.*

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,
Diarrhoea, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidney's, Bowels, Joints, Bones. Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAY'S MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it stong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

*Radway's Circassian Balm is the "ne plus ultra."*

DR. HOOFLAND'S CELEBRATED GERMAN
BITTERS,
Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.
[From the Boston Bee.]

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY,

One of the best literary papers published, said, August 25

"DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the billary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all billous diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

"The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud."
